## MAP System Worldwide Distribution by Dentsply Maillefer

Dentsply Maillefer takes over the distribution of MAP System

Ballaigues and Vevey, Switzerland, 10th March 2011.

Dentsply Maillefer and Produits Dentaires SA (PD) signed an exclusive distribution agreement concerning MAP System, developed and manufactured by Produits Dentaires (PD), used to placing root-canal repair materials either by retrograde obturation or by orthograde obturation.

MAP System, standing for Micro-Apical Placement System, is the state-of-the-art solution used in combination with ProRoot® MTA (Dentsply Maillefer, Ballaigues, Switzerland) by many dentists worldwide.

Designed and manufactured by Produits Dentaires SA (Vevey, Switzerland), MAP System provides a comprehensive solution for accurate, safe and time-saving ProRoot® MTA placement in endodontic applications such as pulp capping, repair of root resorption, root-end filling and repair of root canal perforations as well as in surgical procedures such as apical resection.

The distribution agreement, applying for markets outside the United States of America, Canada and Puerto-Rico, will give to the dental community the opportunity to benefit from the state-of-the-art technology brought by MAP System combined with ProRoot® MTA, technology strongly advocated by renowned endodontists.

For further information about the MAP System, please contact Dentsply Maillefer at [www.dentsplymaillefer.com](http://www.dentsplymaillefer.com) or PD at [www.pdsa.ch](http://www.pdsa.ch).
